

From 45 Minutes to 5

How Eat Drink Vacations cut invoice work without hiring

No new hires. No new tools. No disruption to how the business runs.

127

Hours reclaimed annually

89%

Faster invoice turnaround

\$52K

Booking capacity added

THE CHALLENGE

Eat Drink Vacations delivers curated travel experiences, not spreadsheets. But behind every booking sat a manual process that ate about 45 minutes per client:

- Copying trip details across systems
- Rebuilding invoices line by line
- Sending follow-ups by hand

As bookings grew, invoicing became a daily bottleneck. It slowed revenue, introduced errors, and pulled time away from the client-facing work that actually grows the business.

THE SOLUTION

3 connected steps now move booking data from entry to invoice:

1. **Capture once at the source.** Booking data enters once, eliminating duplicate entry across every downstream step.
2. **Standardize automatically.** Raw trip details are instantly converted into a consistent, invoice-ready format.
3. **Generate in seconds.** Draft invoices are created automatically, with no manual assembly.

“Invoicing was the worst part of my week. Now it literally takes five seconds!”

— Leila, Owner, Eat Drink Vacations

THE RESULTS

127 hours reclaimed annually

70+ additional bookings enabled at current capacity

\$52.5K in booking capacity freed without adding staff

That time isn't spent on invoices anymore. It's spent on clients.

THE OPERATIONAL SHIFT

	BEFORE	AFTER	CHANGE
Time per invoice	45 min	~5 min	89% less
Admin per week	4 hrs	25 min	90% less
Steps per booking	30 steps	5 steps	83% less
